PRESENTERS

Dr. Robin Mason, Scientist in the Violence and Health research program at Women's College Hospital, Women's College Research Institute and an Assistant Professor at the Dalla Lana School of Public Health and the Department of Psychiatry at the University of Toronto

Dr. Louise Overington, Clinical psychologist with The Royal, Substance Use and Concurrent Disorders Program.

Dr. Suzanne Stewart, Director of the Waakebiness-Bryce Institute for Indigenous Health. Dr. Stewart is a member of the Yellowknife Dene First Nation and holds the current Canada Research Chair in Aboriginal Homelessness and Life Transitions.

AUDIENCE

Physicians, health professionals and students

Women with mental illness are 3x more likely to experience violence in relationships.

Women subjected to intimate partner violence are more likely to struggle with substance use than those who haven't.

Thirty. That's the average number of times a woman gets hit before she reports it.
